***Because at no
time do your goods
leave our hands.***

ICD stands for „Intracorporate Destination“. This means: our network of our own branches ensures seamless logistics. Namely, in Austria, South Tyrol and in Switzerland. In Southern Germany, the Czech Republic and Slovakia. In Hungary, Slovenia and Croatia. In Bosnia-Herzegovina, Serbia and Macedonia. In Bulgaria, Romania and the Ukraine. From the supplier to the end customer, at no time does your consignment leave our hands.

1 2 3 4 5

***Because
experience
is the measure
of all things.***

For more than two decades, we have devoted all our efforts to establishing a highly efficient logistics system between Basel and Bucharest. Today, as one of very few providers, we offer in this region standards of the highest level in terms of service, safety, speed and reliability. This is hard to beat.

1 2 **3** 4 5

***Because we offer
plenty of scope
to meet individual
requirements.***

From extremely important individual consignments through to mass distribution nationwide. From small packages up to consignments weighing tons. From very fast to very cost-efficient. On request without transshipment, with punctuality guaranteed or seamless monitoring for sensitive goods. The distribution systems in our ICD countries are efficiently designed with numerous options.

1 2 3 **4** 5

***Because
we invest
in quality.***

Daily departures, defined transit times, modern facilities and unbeatable service. We have invested heavily in order to provide our customers with the best possible logistics service throughout the Alps-Danube region: In the past three years alone, we have invested 100 million euros in this network.

1 2 3 4 5

***Because we are
at home in the
heart of Europe.***

The key to our logistics is our central location in Europe. Our hubs in Austria and Hungary interlink within a radius of only 600 kilometres a region that extends from Switzerland to the Ukraine, from the Baltic Sea to the Mediterranean.

ICD figures

14 countries - seamlessly networked

65.469 Scheduled departure per year

662.921 consignments per year

374.660 t transported weight

100 million euros invested in the ICD network
